Excellence. Realized.
Excellence. Realized.

Over the years, PPG Industrial Coatings has earned a reputation as a leader in the market. PPG continues to build this reputation of excellence today, working with the world's most respected and trusted brands to create the unparalleled range of products for every industrial market. PPG guarantees superior performance, industry-leading technology, and unparalleled service.

Commitment to Sustainability

Manufacturers are looking for solutions that enhance production efficiency while remaining eco-friendly. PPG Industrial Coatings are available in environmentally friendly formulations designed to exceed global and regional environmental requirements. PPG offers industrial coatings that allow customers to reduce their hazardous air pollutant emissions and is committed to continually developing products which meet specific applications. PPG Industrial Coatings manufactures environmentally responsible products that use less energy and utilize better application processes. Tomorrow. Realized.

Global Reach, Local Expertise

No matter where products are designed and manufactured, PPG’s coating experts are on hand to ensure success. Leading OEMs and applicators use PPG’s global coatings platforms to ensure that their products meet the same performance requirements, no matter where the finishing process is located.

PPG Industrial Coating’s reputation for being an honest, fair and reliable partner with which to do business is one of its most valuable assets. PPG consistently delivers on customer commitments and stands behind its products, making PPG the most trusted coatings supplier in the world. Service. Realized.

Performance Promise

PPG Industrial Coatings’ product managers and technical specialists work closely with OEMs and coatings applicators to ensure that our coatings not only meet all performance requirements but are also applied without any problems. PPG experts guide customers through product application, laboratory testing, operational troubleshooting and process design to maximize uptime and contribute to lower overall cost. Results. Realized.

Technology Leadership

PPG continuously develops innovative products which enhance customers’ revenue streams through new aesthetics, enhanced performance properties and increased application efficiency. PPG has an integrated global team of professional color experts, chemists and technical application experts to help manufacturers turn new coatings technologies into viable products which will integrate seamlessly into global supply chains. Innovation. Realized.
Cutting-Edge Products and Technologies

With an unparalleled knowledge of industrial coatings and delivery methods, PPG guarantees your substrate will be protected by the right product at the right price. Whatever the end-market, PPG Industrial Coatings has a product or technology that will exceed the standards of any business.

Market-Specific Experience

PPG Industrial Coatings serves a wide range of industries. From protective to decorative to industrial applications, PPG’s technical experts bring experience and resources within each market to provide solutions that work.

Products

PPG Industrial Coatings offers a wide range of products for various markets:

- Auto Parts & Accessories
- Coil Coatings
- Consumer Products
- Extrusion Products
- General Finishing
- Heavy Duty Equipment
- Major Appliances
- Sports & Recreation
- Transportation
- Wood Coatings
**Unique Solutions**

PPG experts look beyond conventional boundaries to find innovative solutions to individual coatings challenges. PPG can leverage global experience and technologies from a variety of markets to meet the most demanding requirements. Options. Realized.
